NEW FLEXO MACHINE AT EMSUR SAYMOPACK

The plant located in Valencia has been equipped with a new Flexo machine to meet new production expectations for the years to come.

Madrid (Spain); September 20, 2017 ---- The acquisition of this **new printing line** in Valencia meets Emsur's expansion plan through adding the latest technology in its plants while **increasing capabilities** to fulfill a **big portfolio of products**. The machine was installed this Summer and started its first production in **August**.

This new [COMEXI F4](#) acquired is a reference for flexographic printing in short and medium runs. The fabrication of this machine for EMSUR has been **carefully tailored** according to Emsur's specific needs for business improvement. Moreover, this machine has been the first to embody the patented **FLEXO-Efficiency**, concept of ergonomics and accessibility, as well as **performance and robustness**. It is the perfect solution thanks to its dimensions that facilitate any form of handling during the printing process.

*"Purchasing this new equipment for Saymopack means increasing our efficiency while renovating our **commitment to growth and foster innovation** once again. Emsur is making the smartest decisions on its path to continue **servicing** our clients with excellence",* said Santiago Sebastián, General Manager of Emsur Spain.

Emsur **Valencia** is immersed in an **ambitious investment plan** which will also include the acquisition of additional printers, laminators and pouching equipment.

On the other hand, Emsur is taking the right steps forward to be able to **install a new RTO**. Once again, Emsur remarks its **commitment to sustainability** and to preserve the environment.
