EMSUR POLAND CELEBRATES ITS 20th ANNIVERSARY

After 20 years of intense activity, Emsur Poland is expanding the factory boosting its production capacity.

Warsaw (Poland), 16/05/2018 ---- On June 8, 1998, the first foreign **plant of the flexible packaging division** of Grupo Lantero, Emsur Poland was established in Józefów near Warsaw. Initially, the factory was dedicated to the dairy sector, offering **lids and labels** for dairy products and using the rotogravure printing method. Over the years, the portfolio of products offered by Emsur Poland has expanded to **shrink sleeves, monofilms and multilayer laminates**.

The strategic location of the factory in central Europe Poland means a wide coverage area for supplying both sides of Poland, Eastern Europe and Western Europe.

Emsur Poland is one of the 10 factories of the company whose mission is to become a globally diversified flexible packaging manufacturer that provides innovative and high-quality products thanks to reliability, flexibility and commitment with the code of conduct and Emsur's values.

Emsur's development strategy is based on providing high quality products combined with **exceptional service for its clients**, while remaining competitive on the market. One of the key elements of this strategy is the **expansion of the factory in Józefów**, which started at the beginning of 2018. This modern machinery park **will increase the production capacity** of the factory considering the highest standards of quality, safety and production. Emsur Poland development plan was created in response to the dynamic growth of the flexible packaging market, and to provide customers with high quality services and products. The investment includes the creation of a new production hall, warehouse and office space with a **total area over 12000 m2**.

"At Emsur, we are constantly looking for ways to **improve our products and processes** to meet the needs of our customers and bring the company to a new, higher level. One of the elements of this plan is the expansion of the factory located in Poland. We are happy that over the last 20 years we have managed to build a strong position on the flexible packaging market, thanks to the trust of clients from around the world", said Roberto Gonzalez Fernandez, CEO of Emsur Poland.

The company's 20th anniversary **is planned for the 7th of June** in which Emsur's team of experts will present together with business partners, the market trends and product innovations related to current consumer trends. Emsur's guests will have the opportunity to take a closer look at the manufacturing process while visiting the factory, and get to know the high-quality standards taken into account to create Emsur packaging products.

ABOUT EMSUR

Emsur is a division of the Grupo Lantero dedicated to the manufacture of flexible containers for packaging solutions primarily designed for the food sector, with both rotogravure and flexographic printing.

The company currently has 10 production plants that allow them to conduct business in over 60 countries spanning the Americas, Europe, Africa, the Middle East and Asia.
