

Emsur awarded the EcoVadis silver medal at its plants in Poland and France

- *Emsur SPO and Emsur Poland have been awarded the silver medal in recognition of their Corporate Social Responsibility programme.*
- *EcoVadis certification in the “Manufacture of plastic products” category acknowledges Emsur’s commitment to Sustainability.*

Madrid, 2nd October 2019. - Emsur Poland, located in the city of Jozefow, Poland, and Emsur SPO, sited in Ballée, North-west France, have both been awarded the silver medal certificate as **recognition of the company’s commitment to Corporate Social Responsibility**. This certificate, presented by EcoVadis, stands as recognition of the company’s performance and good practices in the areas of Environment, Labour Practices and Human Rights, and Responsible Supplier and Procurement Management in all its operations.

This prestigious award is a reflection on the quality of the CSR management system at both Emsur plants and certifies the company’s pledge to all its stakeholders to implement sustainable business practices based on continuous improvement.

This award was given by [EcoVadis](#) following exhaustive analysis and assessment of the company’s CSR areas based on international standards for sustainable development. The organisation calls for two essential pre-requisites in order to achieve certification: continued excellence over the last 5 years in terms of Business Ethics and over the past three years in the fields of Environment, Labour Practices and Human Rights, and Sustainable Procurement, in which performance at both Emsur plants proved favourable.

Among the companies assessed by EcoVadis, Emsur SPO and Emsur Poland were found to stand out from the rest in terms of their **Continuous Improvement and Business Ethics**. By awarding this certificate, EcoVadis highlights the company’s determination to achieve a **sustainable future**.

In addition, through its internal programme entitled [ONE SAFETY](#), Emsur fosters healthy and safe working environments, which are both principles of mandatory compliance for Ecovadis certification.

Commitment to Sustainability

Emsur is persevering in its efforts to reduce Carbon Footprint by committing to responsible waste management and a reduction in raw material, water and energy consumption, all of which has led to its improved positioning on the ranking of companies assessed by Ecovadis.

The basis of Emsur's commitment to [Sustainability](#) is to supply packaging solutions while at the same time minimising its environmental impact, improving the local communities where they operate and promoting their employees' personal development, thus ensuring the company is always able to offer their customers the best products while also achieving greater competitive edge and differentiation on a global market.

ABOUT EMSUR:

Emsur is the division of Grupo Lantero dedicated to the manufacture of flexible containers for packaging solutions primarily designed for the food sector, with both rotogravure and flexographic printing.

EMSUR employs over 900 people at its 9 production facilities in 8 different countries. Its customer base spans more than 60 countries in the Americas, Europe, Africa, the Middle East and Asia, where it distributes close to 1,000 million square metres.

ABOUT ECOVADIS:

[EcoVadis](#) provides a CSR performance monitoring service to companies through its independent method - 360° Watch - based on sustainability indicators such as environment, labour and human rights, or responsible operational management. The Ecovadis methodology is based on international standards that include the Global Reporting Initiative, the United Nations Global Compact and ISO 26000, and is in turn supervised by a CSR and supply chain scientific committee that guarantees integral evaluation of third-party CSR performance.
